Euro-Kill is probably the best all-round unit on the market. It can be used in almost all areas to any kind of insect control – 2 X 20W !!! Quality vs. Price is a big issue, and this unit is a 5 star. It's very attractive to private clients, who wants a dinner on the balcony without too many insects in the evening.. Pay attention ! It's banned to use in areas with open food preparation.

Package includes:

- 1 pcs.Euro-Kill w. wire & plug
- 2 pcs. Screws for mounting
- 1 pcs. Chains for hanging

Euro-Kill has its best effect standing or hanging near entrances. Full effect is seen in nighttimes, where it empies full area of insects.

Euro-Kill designed to be effective, quick, simple and easy to service, with high quality components and robust all metal construction..

Only service is empty of tray in the bottom and change of lighttubes one time per year.

Safety automatically switch in the bottom to avoid electric chock for children and animals.

EuroKillis a best buy for this price.

We recommend this for:
Farms, private houses,
storage and covered outdoor
enviroments.
