Fly-Add is recommended for:

**Hotels, restaurants, guest
areas and any kind of food
preparation area**

Fly-Add is an incredible news, which hides the negative sides of insect control and change it for a great possibility to give your clients a message through an advertise on the screen. It's called a win-win situation !

Pakken indeholder følgende:

Package includes:

- 1 pcs. Fly-Add w. wire & plug
- 1 set. Screws for mounting
- 1 pcs. Glueboard
- 1 pcs. Plastic screen for add

Print on the screen is included in price, but has to be ordered together with the flykiller. If you want to change the adds on the screen, we recommend you to buy extra screens and let your printhouse print them in high quality.

Fly-Add can be placed on the wall horizontal or vertical – or on any flat surface in 2 – 6 metres above ground.

Glueboard flykillers are ideal for use in commercial front-of-house areas, commercial kitchens and industrial food preparation zones. Glueboard has to be changed 4-6 times a year. Tubes – one time per year.

Pay attention to order shatterproof light tubes, if the unit will be used around food preparation areas.

Fly-Add is a brilliant choice for all kind of environments, where insect control is a "must".
