Warranty	1 year

Designed to be one of the most effective professional units on the market, Commercial gives 360° of light output and the simple glueboard and tube replacement makes Commercial extremely service friendly and a splendid choice for harsh environments.

Package includes following:

- 1 pcs. Commercial w. wire & plug
- 2 pcs. Screws for mounting
- 1 pcs. Glueboard

Commercial is best placed above entrances and ports – wallmounted. But can be placed on every flat surface – ceiling or wall.

Glueboard flykillers use UV light to attract flying insects to the unit, then use a glueboard to retain the flying insects. As the insect is caught and retained whole.

Glueboard flykillers are ideal for use in commercial front-of-house areas, commercial kitchens and industrial food preparation zones. Glueboard has to be changed 4-6 times a year. Tubes – one time per year.

Security switch.

We recommend shatterproof tubes for this unit, if it's used for sensitive areas such as food preparation areas.

Commercial is the most effective and economic solution on the market compared to similar units.

**We recommend this for:
Harsh environments as food
preparation, industry,
storage and large areas.**
